New Protocols

Protocol #	PI	Move to Status	# Yes Votes	# No Votes	# Other Votes	Reconciled
IBC-00000177	Bustos Velasquez, Francisco Juvenal	Pending	5	0	0	No
Minutes						
After much discussion about this project and how the information was captured in the Cayuse registration, a motion was made to approve the registration pending one clarification regarding the Ecoli that is being used for on-site propagation. The information should be added to the microorganism page for clarity. However, the committee members did not have any safety concerns with the project and once these clarification are made, the IBC Chair can approve the registration without it coming back to the full committee.						

Approved Protocols

Protocol #	PI	Title	Date Approved	Next Review Date	Expiration Date
IBC-00000176	Baack, Michelle	Nanoparticle based targeted delivery of Veratridine overcomes clinical challenges in metastatic colon cancer	09/03/2025	09/03/2026	09/03/2028
