GROUP WORK NORMS

- Everyone in the group has useful knowledge.
- Everyone has something to learn from others.
- The group succeeds together.
- Listening is more important than being heard.
- You have the right to ask for help.
- You have a duty to give help to those that ask for it.
- No one is done until everyone is done.

READ YOUR CASE STUDY

My Case Study: _____

1. Give a specific example of how the ethics of the case is questionable.
2. What are your opinions of the study?
3. Which of the Belmont rules were not followed?

MEET WITH OTHERS

Record any new perspectives discussed.

SHARE YOUR CASE STUDY

Listen to your classmates share their case studies. Record the main idea and state which Belmont regulation was not followed and explain your reasoning.

MAIN IDEA OF CASE

1.

2.

3.

BELMONT REGULATION NOT FOLLOWED

1.

2.

3.

Here's what I did today!

Today I visited the virtual PROMISE Lab at Sanford Research. I learned about the need for regulation in medical science and the history of how we developed today's ethical standards.
